TRANSMITTAL OF TECHNICAL MEMORANDUM NUMBER 1, REVISED FIELD SAMPLING FOR THE WEST SPRAY FIELD (IHSS 168). OPERABLE UNIT NUMBER 11 – WSB-018-94

Attached are 4 copies of Draft Technical Memorandum (TM) No. 1, Revised Field Sampling Plan for The West Spray Field Individual Hazardous Substance Site 168 (IHSS 168), Operable Unit No. 11. This draft has incorporated all comments from the Department of Energy (DOE) Headquarters and DOE, Rocky Flats Office (RFO). Per your request, draft copies of this TM have been delivered to the regulatory agencies for review. This will allow us to maximize schedule acceleration by ensuring that all issues pertaining to the proposed reductions in scope are identified and resolved prior to submittal of a final TM to the regulatory agencies. This will support a proactive scoping of this accelerated effort by obtaining early concurrence on proposed scope reductions.

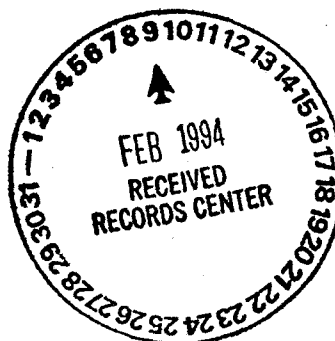

If you have any questions or requests concerning this TM, please contact Tim O'Rourke at extension 8577.
